Issuer: President	Issue Date: 19 Sept 2016	Document No.: QA-003
Approved By: Quality Management Rep.	Rev Date: 3 May 2018	Page 3 of 7

Foreword

This Quality Manual contains the quality management procedures implemented at **NRAC**. The procedures documented in this manual are intended to comply with the specific clauses outlined in the following standards:

**ISO 9001: 2015
International Standard
Edition 2015-09-15**

In the event of a significant change to the Quality Management System we will inform our Quality System Registrar.

Scope of Registration

The scope of operations that **NRAC** has registered is:

**Design, manufacture and delivery of commercial refrigeration equipment,
including replacement / service components**

Exclusions:

NRAC's quality management system does not have any justifiable exclusions.

Issuer: President	Issue Date: 19 Sept 2016	Document No.: QA-003
Approved By: Quality Management Rep.	Rev Date: 3 May 2018	Page 4 of 7

The procedures are documented using a process approach that reflects the operation of **NRAC**. The Table of Contents provides a cross-reference table that maps the ISO 9001:2015 requirements to the **NRAC** procedures.

QUALITY POLICY

National Refrigeration has developed its expertise since its establishment and its aim is to be the best provider of Commercial Refrigeration Equipment. The company shows strong management commitment to achieve the standards required by implementing a Quality Management System (QMS) conforming to the requirements of ISO 9001.

We aim to build a mutually profitable partnership with our customers; ensuring their long-term success. We will strive to achieve our commitments for quality, cost, schedule, and to produce finished product that we can justifiably be proud of.

The above shall be achieved by:

1. **Continually improving** the effectiveness of our Quality Management System.
2. Working closely with our **customers** to ensure we understand and **satisfy their needs**.
3. Working closely with our **suppliers** to ensure they understand and **satisfy our needs**.
4. **Meeting** all applicable **legal** and regulatory **requirements**.
5. **Developing** our **people** and processes.
6. Utilizing procedures to **control key processes**.
7. Establish objectives to help **communicate** organizational **direction** and **drive improvement**.
8. Periodically **reviewing** this policy, so that it **remains relevant** and **communicating it** internally to all concerned.

Through the use of these guiding principles, everyone in the company is responsible for the quality of their work.
