TPLP with ESP+

GOOD

TLP

- Compact, slim, low-profile design
- Complete lineup of DOE/NRCAN AWEF compliant models
- EC Shafted Motors with patented SmartSpeed™ Technology
- Enhanced copper tubing for maximum heat transfer
- Compatible with low GWP refrigerants
- Available in Air, Electric, or Gas defrost
- Honeycomb fan guard provides industry leading air throw
- Contractor friendly electrical and mechanical panels with front access positive slope hinged drain pan

BEST

TPLP with ESP+

- Intuitive Evaporator Control Technology
- Factory installed adaptive defrost control with remote display, electronic expansion valve, and solenoid valve
- Energy savings through reduction of defrost cycles
- No interconnecting control wiring 2 pipes, 2 wires and you're done
- Remote monitoring and system control
- Advanced alarm notifications via text/email
- Diagnostic mode for simple troubleshooting
- Downloadable 30-Day system history
- Compatible with up to 20 different refrigerants
